

Secure Payment Processing

For Government, Higher Ed and K-12

The convenience your payers want—
with the lower costs you expect.

Offer everyday 24x7 convenience to businesses and citizens. Our payment processing solutions range from single, low-volume implementations of integrated systems to a high-volume platform that supports the leading property tax payment system in California.

With us, you can rest easy knowing

Our solution is proven and VITA-approved.

AISN's secure payment processing is VITA-approved and already in use by state agencies,

You're tapping the power of cloud without compromising.

We've been providing PCI DSS-compliant infrastructure solutions with industrial strength security and reliability to the Commonwealth since 2012.

We're cheaper than the competition.

Unlike our competitors, we don't charge you for each transaction. A simple flat rate fee based on transaction volume keeps your cost low.

We'll integrate secure payment processing with your site.

Legacy apps? No problem. AISN will integrate with those and migrate your data to secure environments, simply, and quickly.

You have a responsive provider.

AISN answers the phone, knows your data, and gives personalized service.

Why AISN?

AISN is the SWaM-certified IT managed services expert serving the Commonwealth of Virginia since 2012. We are PCI DSS 3.2-compliant, among other compliances. AISN has hosted Virginia.gov, and dozens of agencies, localities, schools and other public entities across the commonwealth have used AISN as a one-stop shop to build, host, operate and maintain mission-critical applications, websites, payment and licensing portals, databases, and more. Recent successes include development of the Virginia Department of Education's School Quality Profiles online report card tool as well as special projects for the Virginia Department of Motor Vehicles, the Virginia Department of Agriculture and Consumer Services, and the Virginia Health Care Foundation.

AISN's Virginia eGov contract vehicles make purchasing innovative, cost-saving IT solutions and services easy: **VA-120416-AISN Hosting Services, VA-120413-BPI Web Applications Maintenance and Operations, and CAI Virginia IT Contingent Labor Contract Statement of Work (SOW) – Application Development.** Visit www.aisn.net/egov.
